

# Solutions for Alternative Access and Communication: Meet your presenters:

	<p><b>Jo Taylor, MS, Ed., CCC-SLP</b> is a solutions consultant for Tobii Dynavox in Eastern North Carolina and Hampton Roads, VA. As a speech-language pathologist, Jo has experience in early intervention, private practice, home health, and AAC evaluation and treatment. She began her role with Tobii Dynavox in 2021, where she continues to consult and train on AT equipment, present at universities, conferences, schools and private practices, and provides individual support for professionals, caregivers, and AAC users.</p>
	<p><b>Alex Kurth, OT and ATP</b> has experience working with pediatric and adult populations. He started his career working in the school systems of Virginia Beach Public Schools, then to Henrico County Public Schools, before joining the DC/VA/MC ALS Association as an AT specialist. After completing requirements as an ATP, he joined the seating and mobility world with Numotion. He started with TobiiDynavox in 2015 and has proudly served and helped individuals to acquire a voice and support computer access.</p>
	<p><b>Whitney Katzenberger, M.Ed., CCC-SLP</b> is a speech-language pathologist who began working with Tobii Dynavox in the fall of 2023. She has worked with infant through geriatric populations in a variety of settings including acute care, acute inpatient rehabilitation, and outpatient. Whitney has specialized training in head and neck cancer. Regardless of age or diagnosis, she believes that providing individuals with a means to communicate is paramount, as it not only fosters their basic human right to express thoughts and needs but also enhances their overall well-being and quality of life.</p>
	<p><b>Kira Williams, OTD,OTR/L</b> is an occupational therapist who began working with Tobii Dynavox in the summer of 2023. She has experience across the lifespan and in numerous settings, including pediatric outpatient, home health, and acute care. With her occupational therapy background, she looks at AAC through a unique lens with focus on access and independence.</p>
